

## 2023 CaSGC Undergraduate Research Opportunity Program--Mentor Form

### Mentor Form

**THIS IS A SAMPLE FORM ONLY FOR YOUR REFERENCE.  
ACTUAL FORM IS SUBMITTED ONLINE. LINK WILL BE SHARED WITH YOU ONCE  
STUDENT OFFICIALLY SUBMITS APPLICATION.**

**Please complete this form on or before Monday, January 30, 2023.**

Thank you for agreeing to serve as a research advisor/mentor for your student's California Space Grant Consortium (CaSGC) research project.

These awards are intended to assist promising undergraduates in receiving hands-on research experience in projects related to NASA's Aeronautics Research, Human Exploration & Operations, Science, or Space Technology mission directorates. These student awards emphasize:

- Excellence in academics
- Exhibited leadership qualities
- Research projects related to NASA's mission directorates

At the end of the project, the student will be asked to submit to CaSGC, a final report summarizing the research conducted and to describe the impact of this experience on his or her academic career. Students are encouraged to share their work through presentations and posters, so it would be helpful if you could point out opportunities for them to do so.

Thank you again for your support and involvement. If you have any questions regarding the CaSGC UROP award, please contact rehoward@ucsd.edu
